DEPARTMENT OF MANAGEMENT AND BUDGET

PROPERTY MANAGEMENT DIVISION

PARKING ON STATE PROPERTY

R 18.401 Scope.

Rule 1. These rules shall apply to real property owned or leased by the state under the jurisdiction of the department of technology, management and budget designated for the parking of motor vehicles.

History: 1982 AACS; 2012 MR 22, Eff. Dec. 4, 2012.

R 18.402 Definitions.

Rule 2. As used in these rules:

- (a) "Department" means the department of technology, management and budget.
- (b) "Director" means the director of the department or his or her designated representative.
- (c) "Parking facility" means real property owned or leased by the state and under the jurisdiction of the department designated for the parking of motor vehicles.
- (d) "Parking unit" means the unit located within the department of technology, management and budget, cybersecurity and infrastructure protection which is in charge of 1 or more parking facilities as designated by the director.
- (e) "Reserved parking space" means a designated parking space or area within a parking facility which is assigned to a specific state employee, a carpool, a member of the public, or any other approved individual for which a fee is charged.
- (f) "Tow away" means the removal or storage, or both, of a motor vehicle from a parking facility.
- (g) "Violation notice" means a form designated by the department to give notice of a rule violation.
- (h) "Violator" means a person who operates a motor vehicle or acts in such a manner as to be in violation of these rules.

History: 1982 AACS; 2012 MR 22, Eff. Dec. 4, 2012.

R 18.403 Reserved parking generally.

Rule 3. (1) A state employee or any other approved individual may request a reserved parking space from the parking unit on the designated form as required by the department.

(2) A reserved parking space agreement authorizes parking in the assigned space or area. Permits or gate cards shall not be transferred and remain the property of the department. Lost gate card replacement cost will be determined by the department.

(3) Reserved parking space requests shall be assigned in a chronological order as submitted.

(4) When a new state government facility is constructed or obtained by the department, initial reserved parking space assignments for that facility shall be determined by the department.

(5) The reserved parking permit allows use of that space during the employee's normal work shift. Additional parking time while performing state business is subject to department approval.

Annual Administrative Code Supplement
2012 Edition

(6) All payments for reserved parking shall be biweekly payroll deductions only, unless otherwise specified by the department.

History: 1982 AACS; 2012 MR 22, Eff. Dec. 4, 2012.

R 18.404

Source: 1982 AACS.

R 18.405

Source: 1982 AACS.

R 18.406 Reserved parking; entrance and exit.

Rule 6. (1) Access to, and egress from, a parking facility shall be designated by the department.

(2) Drivers of motor vehicles in a parking facility shall observe and obey all traffic control signs, signals, devices, and markings, as posted, painted, or installed by the department.

DEPARTMENT OF MANAGEMENT AND BUDGET
PROPERTY MANAGEMENT DIVISION
REAL ESTATE SERVICES

R 18.501 Definitions.

Rule 1. As used in these rules:

- (a) "Agreement" means a contract transferring the right, acquired for a consideration, to possession or use of real property on a month-to-month basis for a period not to exceed 1 year.
 - (b) "Appraisal" means an estimate or opinion as of a given date of the fair market value of real property.
 - (c) "Bidder" means an individual or other legal entity that submits a sealed bid or bid proposal.
 - (d) "Bidder list" means a general or geographic list maintained by the department's real estate office which sets forth the names and addresses of potential owner/lessors who have requested that they be provided solicitations for sealed bids or bid proposals. The bidder list is subject to ongoing additions and deletions in response to written requests from owner/lessors and is also formally updated by solicited responses on an annual basis.
 - (e) "Bid proposal" means an offer submitted in response to the state's solicitation for available space (including major remodeling or new construction, or both, when acceptable multiple locations are available) which meets or exceeds minimum specifications, requirements, and instructions outlined in a solicitation notice, with all exceptions or substitutions noted.
 - (f) "Department" means the department of technology, management and budget.
 - (g) "Director" means the director of the department or his or her authorized representative.
 - (h) "Fair market value" means the highest estimated price which real property will bring if offered for sale on the open market, allowing a reasonable time to find a purchaser who would buy with knowledge of the property's possible uses.
 - (i) "Financial analysis" means an analysis of the cost or value of the land, the improvements, and construction; amortization; interest; taxes; insurance; and any other pertinent factors included in a proposed rental rate which can be verified and compared to the open market competition.
 - (j) "Lease" means a contract transferring the right, acquired for a consideration, to possession or use of real property for a definite period of time.
 - (k) "Lessee" means a tenant or one who rents real property.
 - (l) "Lessor" means the owner of real property or one who lets the property.
 - (m) "Market rental analysis" means the conclusion reached through the comparison of rental rates on similar properties taking into account established market costs for differences in services provided.
 - (n) "Option" means the right, acquired for a consideration, to buy certain property for a fixed price within a specified time.
 - (o) "Real estate manager" means the manager of the state's central real estate office as designated by the director.
 - (p) "Real property" means the interests, benefits, and rights inherent in the ownership of the physical real estate, including the land, everything attached to it, and everything under or over it.
 - (q) "Rental" means a consideration paid by a lessee for the possession or use of real property.
 - (r) "Sealed bid" means a bid quotation in response to a solicitation where comparable facilities are established by complete plans and specifications which may include a designated site.

PART 2. SELECTION AND EMPLOYMENT STANDARDS

R 28.14201
Source: 2006 AACCS.

R 28.14202
Source: 2006 AACCS.

R 28.14203
Source: 2006 AACCS.

R 28.14204 Medical selection qualifications.

Rule 204. A person selected to become a law enforcement officer pursuant to the provisions of the act shall meet all of the medical requirements in subdivisions (a) to (e) of this rule. A determination of compliance with the medical standards in this rule shall be made by a licensed physician, with the exception that a determination of compliance with subdivisions (a), (b), (c) and (e)(iii) of this rule shall be made as provided in each of the following:

(a) Possess normal visual functions at a level necessary to perform the job of a law enforcement officer as determined by complying with the provisions of this subdivision. All vision testing shall comply with the test manufacturer's specifications and protocols. The following determinations of compliance with this standard may be made by a licensed optometrist.

(i) Far visual acuity complying with 1 of the following:

(A) Acuity in each eye uncorrected of 20/20 or better.

(B) Acuity in each eye corrected to 20/20 or better.

(ii) Near visual acuity at a range of 10 to 20 inches complying with 1 of the following:

(A) Acuity in each eye uncorrected of 20/20 or better, reduced Snellen equivalent.

(B) Acuity in each eye corrected to 20/20, reduced Snellen equivalent.

(iii) Normal color vision as determined by testing and passing either of the following color vision tests. The use of refractive correction is permitted; however, the use of an x-chrom lens, or any other lens purported to enhance color perception, is prohibited.

(A) Pseudoisochromatic plates that have been approved by the commission.

(B) The Farnsworth dichotomous d?15 panel test.

(iv) The pseudoisochromatic plates shall be administered first, before the panel test. If an applicant passes the plates, no further color vision testing is required.

(v) Peripheral vision in each eye of 90° vertically and 120° horizontally.

(vi) Normal binocular vision as determined by testing and passing a stereopsis test to 80 seconds of stereoacuity, or better. Failure on the stereopsis test requires further testing to determine that diplopia is not present. (b) Hear at a level necessary to perform the job of a law enforcement officer as determined by complying with subdivision (c) of this subrule. Throughout

Annual Administrative Code Supplement
2012 Edition

the testing specified in subdivision (c) of this subrule, the intensity of auditory stimuli shall be expressed in decibels relative to a normal hearing level as defined by the American national standards institute (ANSI) S3.6-1996, or more current ANSI standard. This standard is adopted by reference and is available from the acoustical society of America at www.asa.aip.org for purchase at the time of the adoption of these rules at \$100 and are available for inspection at the commission offices at 106 West Allegan, Suite 600, Lansing, Michigan. The testing shall be performed by the following persons, as applicable:

(i) An audiologist at a hearing clinic accredited by the professional services board of the American speech-language-hearing association may do all testing in R 28.14204(c).

(ii) An audiologist who has a certificate of clinical competence from the American speech-language-hearing association or an audiologist who holds fellowship status in the American academy of audiology may do all of the testing in R 28.14204(c). The audiologist shall be licensed, if applicable.

(iii) A hearing conservationist certified by the council for accreditation in occupational hearing shall do only the testing in R 28.14204(c)(i).

(iv) A hearing aid specialist licensed by the Michigan department of licensing and regulatory affairs shall do only the testing in R 28.14204(c)(i).

(c) Comply with 1 of the following standards: Testing shall be done in the order listed. If an applicant passes 1 of the standards, then further testing is not required.

(i) Unaided audiometric testing on each ear that results in pure tone air conduction thresholds for each ear, as shown on the pure tone audiogram, of not poorer than a hearing level of 25 decibels at any of the following frequencies: 500, 1,000, 2,000, and 3,000 Hertz; and 45 decibels at 4,000 Hertz.

(ii) Unaided audiometric testing on each ear that results in all of the following:

(A) An unaided 4-frequency average pure tone threshold for each ear, as derived from the pure tone air conduction audiogram at 500, 1,000, 2,000, and 3,000 Hertz, of not poorer than a hearing level of 25 decibels, and a hearing threshold level at any single frequency of not poorer than 35 decibels.

(B) Unaided speech recognition scores of 90% or better in each ear, measured under audiometric earphones at 50 decibels in quiet, and using full lists of recorded phonetically balanced words that are age-appropriate.

(C) An unaided speech recognition score of 70% or better, measured for both ears at the same time in an audiometric sound field at a plus 5 decibel signal-to-noise ratio. For this measurement, speech stimuli and competing speech noise shall be presented through the same loudspeaker, or 2 loudspeakers stacked vertically, at zero degree azimuth. Speech stimuli shall be presented at 50 decibels using a full list of recorded phonetically balanced words that are age-appropriate.

(iii) Audiometric testing with 1 or both ears aided that results in all of the following:

(A) An aided 4-frequency average threshold for each ear, as derived from the sound field aided audiogram at 500, 1,000, 2,000, and 3,000 Hertz of not poorer than a hearing level of 25 decibels, and a hearing threshold level at any single frequency of not poorer than 35 decibels. Measurements shall be made monaurally in an audiometric sound field with the unaided (non-test) ear plugged or, when necessary, effectively masked. Test signals shall consist of either frequency-specific modulated tones or narrow band noise presented through a loudspeaker at zero degree azimuth, and results shall be expressed as aided hearing levels.

(B) Aided speech recognition scores of 90% or better in each ear measured at 50 decibels in quiet, and using full lists of recorded phonetically balanced words that are age appropriate. Measurements shall be made monaurally in an audiometric sound field with the loudspeaker at zero degree azimuth and the unaided (non-test) ear plugged or, when necessary, effectively masked.

(C) An aided speech recognition score of 70% or better, measured for both ears at the same time in an audiometric sound field at a plus 5 decibel signal-to-noise ratio. For this measurement, either 1 or both ears shall be fitted with a hearing aid, and, where only 1 ear has been fitted with a hearing aid, the unaided ear shall not be plugged or masked. For this measurement, speech stimuli and competing speech noise shall be presented through the same loudspeaker, or 2 loudspeakers stacked vertically, at zero degree azimuth. Speech stimuli shall be presented at 50 decibels using a full list of recorded phonetically balanced words that are age-appropriate.

(d) Be free from any of the following, which may impair the performance of the essential job functions of a law enforcement officer or which may endanger the lives of others or the law enforcement officer:

(i) Physical defects.

(ii) Chronic diseases.

(iii) Mental and emotional instabilities. The commission permits and may require the determination of compliance with this requirement be made by a board certified psychiatrist or a licensed psychologist.

(e) The commission may establish specific tests, procedures, and qualifications for use in determining compliance with the medical standards in R 28.14204 (a) to (e).

(f) If an initial examination indicates that a person may not comply with R 28.14204 (a) to (e), then the person may request a reexamination. The reexamination shall be done at the direction of the commission. The cost of the reexamination shall be

Annual Administrative Code Supplement
2012 Edition

the responsibility of the person or the employing agency.

(g) Except where specified otherwise, the results of any examination or test performed under this rule shall remain valid for not more than 180 days from the date of the examination.

(h) The commission may, after giving due consideration to the needs of agencies, academies, and potential recruits, establish and require the utilization of a list of approved health care providers to make a determination of compliance with this rule.

(i) The commission may establish time frames during which compliance with this rule shall be valid.

R 29.2107 Definitions.

Rule 7. Section 280.12 is amended to read as follows:

Section 280.12. Definitions.

"Aboveground release" means any release to the surface of the land or to surface water. This includes, but is not limited to, releases from the aboveground portion of an UST system and aboveground releases associated with overfills and transfer operations as the regulated substance moves to or from an UST system.

"Active UST system" means an UST system that has been in use within the past 12 months.

"Ancillary equipment" means any devices including, but not limited to, such devices as piping, fittings, flanges, valves, and pumps used to distribute, meter, or control the flow of regulated substances to and from an UST.

"Approved" means acceptable to the department, unless specifically indicated otherwise in the rule.

"Belowground release" means any release to the subsurface of the land or to groundwater. This includes releases such as those from the belowground portions of an UST system and belowground releases associated with overfills and transfer operations as the regulated substance moves to or from an UST.

"Beneath the surface of the ground" means beneath the ground surface or otherwise covered with earthen materials.

"Cathodic protection" is a technique to prevent the corrosion of a metal surface by making that surface the cathode of an electrochemical cell. For example, a tank system can be cathodically protected through the application of either galvanic anodes or impressed current.

"Cathodic protection tester" means a person who can demonstrate an understanding of the principles and measurements of all common types of cathodic protection systems as applied to buried or submerged metal piping and tank systems and who has education and experience in soil resistivity, stray current, structure-to-soil potential, and component electrical isolation measurements of buried metal piping and tank systems. The person shall be certificated as being qualified by the national association of corrosion engineers (NACE) international, steel tank institute (STI), or any other organization that is acceptable to the department.

"CERCLA" means the comprehensive environmental response, compensation, and liability act of 1980, as amended, 42 U.S.C. section 9601 et seq.

"Class A operator" means either the O/O as defined in these rules or legal designee and has primary responsibility to operate and maintain the UST system.

"Class B operator" means an individual or individuals who implements day-to-day aspects of operating, maintaining, and recordkeeping for USTs at 1 or more facilities.

"Class C operator" means an individual responsible for responding to alarms or other indications of emergencies caused by spills, releases, overfills, and other emergency conditions associated with an UST system. A "class C operator" is not considered a "designated class B operator" as defined in these rules, although the same individual may hold both positions.

"Compatible" means the ability of 2 or more substances to maintain their respective physical and chemical properties upon contact with one another for the design life of the tank system under conditions likely to be encountered in the UST.

"Connected piping" means all underground piping, including valves, fittings, joints, flanges, and flexible connectors attached to a tank system, through which regulated substances flow. For determining how much piping is connected to any individual UST system, the piping that joins 2 UST systems shall be allocated equally between the systems.

"Consumptive use," with respect to heating oil, means consumed on the premises.

"Corrosion expert" means a person who, by reason of thorough knowledge of the physical sciences and the principles of engineering and mathematics acquired by a professional education and related practical experience, is qualified to engage in the practice of corrosion control on buried or submerged metal piping systems and metal tanks. The person shall be certificated as being qualified by the NACE international as a senior corrosion technologist, a cathodic protection specialist, or a corrosion specialist or be a registered professional engineer who has certification or licensing that includes education and experience in corrosion control of buried or submerged metal piping systems and metal tanks.

"Deminimis concentration" A UST meets the requirements of exclusion (o) for deminimis concentration of regulated substances, under the definition of "UST system," if both of the following conditions are met:

(a) The concentration of a regulated substance in an UST system, when mixed with a nonregulated substance, is less than 110 gallons of regulated substance when the storage tank is full.

(b) The UST system, of any size or capacity, contains less than the reportable quantity of hazardous substance or substances in the product stored, as identified in the United States environmental protection agency table 302.4 list of hazardous substances and reportable quantities (see appendix A), when the storage tank is full.

"Deminimis quantity" means that the total quantity of a hazardous substance mixed with petroleum in a full UST is less than the reportable quantity for the substance as specified on the CERCLA list. This does not apply to motor fuel additives and blends that are added at the refinery or shipped via pipeline with the finished product, or both.

Annual Administrative Code Supplement
2012 Edition

"Department" means the department of environmental quality.

"Dielectric material" means a material that does not conduct direct electrical current. Dielectric coatings are used to electrically isolate UST systems from the surrounding soils. Dielectric fittings are used to electrically isolate portions of the UST system, for example, the tank from piping.

"Director" means the director of the department.

"Electrical equipment" means underground equipment that contains dielectric fluid that is necessary for the operation of equipment such as transformers and buried electrical cable.

"Excavation zone" means the volume containing the tank system and backfill materials bounded by the ground surface, walls, and placed at the time of installation.

"Existing tank system" means a tank system used to contain an accumulation of regulated substances or for which installation is considered to have commenced if the O/O has obtained all federal, state, and local approvals or permits necessary to begin physical construction of the site or installation of the tank system and either a continuous on-site physical construction or installation program has begun or the O/O has entered into contractual obligations - that cannot be canceled or modified without substantial loss. These obligations include the physical construction at the site or installation of the tank system to be completed within a reasonable time.

"Farm tank" means a tank located on a tract of land devoted to the production of crops or raising animals, including fish, and associated residences and improvements. A farm tank shall be located on the farm property. "Farm" includes fish hatcheries, rangeland, and nurseries that have growing operations.

"Field-constructed tank" means a tank which has a capacity of more than 50,000 gallons and which is constructed on-site.

"Flow-through process tank" means a tank that forms an integral part of a production process through which there is a steady, variable, recurring, or intermittent flow of materials during the operation of the process and the tank is utilized to carry out or control the heating, cooling, mixing, blending, separating, metering, or chemical action of materials. The processing is done on a regular basis and it is the primary function of the tank. Flow-through process tanks do not include tanks used for the storage of materials before their introduction into the production process or for the storage of finished products or by-products from the production process or tanks that are only used to recirculate materials.

"Free product" means a regulated substance that is present as a nonaqueous phase liquid (for example, liquid not dissolved in water).

"Gathering lines" means any pipeline, equipment, facility, or building used in the transportation of oil or gas during oil or gas production or gathering operations.

"Hazardous substance UST system" means an UST system that contains a hazardous substance defined in section 101(14) of the comprehensive environmental response compensation and liability act of 1980, 42 U.S.C. 9601, (but not including waste under subtitle C) or any mixture of such substances and petroleum, unless the mixture is a petroleum product.

"Heating oil" means petroleum that is no. 1, no. 2, no. 4-light, no. 4-heavy, no. 5-light, no. 5-heavy, and no. 6 technical grades of fuel oil; other residual fuel oils, including navy special fuel oil and bunker C; and other fuels when used as substitutes for one of these fuel oils. Heating oil is typically used in the operation of heating equipment, boilers, or furnaces.

"Hydraulic lift tank" means a tank holding hydraulic fluid for a closed-loop mechanical system that uses compressed air or hydraulic fluid to operate lifts, elevators, and other similar devices.

"Implementing agency" means the department of environmental quality, by section 21106 of 1994 PA 451, MCL 324.21106 or a local unit of government delegated authority under part 211 of 1994 PA 451, MCL 324.21101 to 324.21113.

"Integral secondary containment system" means a tank or piping system that has the primary containment tank or piping system fully jacketed by an external, 360-degree, unbonded, nonmetallic material, that provides for external corrosion protection, liquid interstitial space communication and monitoring, and product compatibility to contain a release from the primary containment tank or piping system. The jacketing material for the tank shall be a minimum of 100 mils in thickness. The integral secondary containment system shall be acceptable to the department.

"In use" means that an UST or UST system contains more than 2.5 centimeters (1 inch) of a regulated substance.

"Liquid trap" means sumps, well cellars, and other traps used in association with oil and gas production, gathering, and extraction operations, including gas production plants, for the purpose of collecting oil, water, and other liquids. These liquid traps may temporarily collect liquids for subsequent disposition or reinjection into a production or pipeline stream or may collect and separate liquids from a gas stream.

"Local unit of government" means a city, village, township, county, or governmental authority or any combination of cities, villages, townships, counties, or governmental authorities.

"Maintenance" means the normal operational upkeep to prevent an UST system from releasing product.

"Motor fuel" means petroleum or a petroleum-based substance which is motor gasoline, aviation gasoline, no. 1 or no. 2 diesel fuel, or any grade of gasohol and which is typically used in the operation of a motor vehicle.

"Motor fuel dispenser system replacement" means to remove an existing dispenser and the equipment necessary to connect the dispenser to the UST system and install a new dispenser and the equipment necessary to connect the dispenser to the UST

Annual Administrative Code Supplement
2012 Edition

system. This equipment includes the following:

- (a) Flexible connectors.
- (b) Risers.
- (c) Check valves, shear valves, and unburied risers.
- (d) Other transitional components that are beneath the dispenser and connect the dispenser to the piping.

"New tank system" means a tank system which will be used to contain an accumulation of regulated substances and for which installation has commenced after December 22, 1988. See also "existing tank system."

"Noncommercial purposes," with respect to motor fuel, means, not for resale.

"On the premises where stored," with respect to heating oil, means UST systems located on the same property where the stored oil is used.

"Operational life" means the period beginning when installation of the tank system has commenced until the time the tank system is properly closed under subpart G.

"Operator" means a person who is presently, or was at the time of a release, in control of, or responsible for, the operation of an UST system.

"Out of service" is defined the same as "out of use".

"Out of use" means that an UST system is not in use. (See definition of "in use"). The system shall be reported as either temporarily closed or permanently closed.

"Overfill release" means a release that occurs when a tank is filled beyond its capacity and results in a discharge of the regulated substance into the environment.

"Owner" means a person who holds, or at the time of a release held, a legal, equitable, or possessory interest of any kind in an UST system or in the property on which an UST system is located, such as, a trust, vendor, vendee, lessor, or lessee. However, "owner" does not include a person or a regulated financial institution acting in a fiduciary capacity that, without participating in the management of an UST system and without being otherwise engaged in petroleum production, refining, or marketing relating to the UST system, holds indicative of ownership primarily to protect the person's or the regulated financial institution's security interest in the UST system or the property on which it is located or to implement the terms of a trust agreement.

"O/O" means owner and/or operator.

"Person" means any of the following:

- (a) An individual.
- (b) A partnership.
- (c) A joint venture.
- (d) A trust.
- (e) A firm.
- (f) A joint stock company.
- (g) A corporation, including a government corporation.
- (h) An association.
- (i) A local unit of government.
- (j) A commission.
- (k) The state.
- (l) A political subdivision of a state.
- (m) An interstate body.
- (n) The federal government.
- (o) A political subdivision of the federal government.
- (p) Any other legal entity.

"Petroleum UST system" means an UST system that contains petroleum or a mixture of petroleum that has additives and de minimis quantities of other regulated substances. The systems include those containing any of the following:

- (a) Motor fuels.
- (b) Jet fuels.
- (c) Distillate fuel oils.
- (d) Residual fuel oils.
- (e) Lubricants.
- (f) Used oils.

"Pipe" or "piping" means a hollow cylinder or tubular conduit that is constructed of nonearthen materials that routinely contains and conveys regulated substances from the tank or tanks to the dispenser or dispensers or other end use equipment and includes connected piping. Piping does not include any of the following:

- (a) Vent pipe.

Annual Administrative Code Supplement
2012 Edition

(b) Vapor recovery lines.

(c) Fill lines that are not remote fill lines and that do not routinely contain regulated substances.

"Piping replacement" means to remove, and put back in more than 50% of piping connected to a single underground tank.

"Pipeline facilities," including gathering lines, means new and existing pipe rights-of-way and any associated equipment, facilities, or buildings.

"Public water supply" has the same meaning as defined in 1976 PA 399 MCL 325.1001 to 325.1023 and rules promulgated under that act.

"Regulated substance" means either of the following:

(a) A substance defined in section 101(14) of title I of the comprehensive environmental response, compensation and liability act of 1980, Public Law 96-510, 42 U.S.C. section 9601 et seq., but not including a substance regulated as a hazardous waste under subtitle C of the solid waste disposal act of 1965, title II of Public Law 89-272, as amended, 42 U.S.C. section 6921 to section 6931 and section 6933 to section 6939b.

(b) Petroleum, including crude oil or any fraction of crude oil that is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute). Petroleum includes mixtures of petroleum that have de minimis quantities of other regulated substances and also includes petroleum-based substances comprised of a complex blend of hydrocarbons derived from crude oil through processes of separation, conversion, upgrading, or finishing, such as any of the following:

(1) Motor fuels.

(2) Jet fuels.

(3) Distillate fuel oils.

(4) Residual fuel oils.

(5) Lubricants.

(6) Petroleum solvents.

"Release" means any spilling, leaking, emitting, discharging, escaping, leaching, or disposing from an UST into groundwater, surface water, or subsurface soils.

"Release detection" means determining whether a release of a regulated substance has occurred from the UST system into the environment or into the interstitial space between the UST system and its secondary barrier or secondary containment around it.

"Repair" means to restore a tank or UST system component. Repairs that involve the replacement of more than 50% of the length of any underground piping between the tank and the dispenser at any 1 time shall be considered a replacement of the underground piping and shall meet the requirements of the new UST system underground piping in subsection 280.20(b).

"Residential tank" means a tank located on property used primarily for dwelling purposes.

"SARA" means the superfund amendments and reauthorization act of 1986, 42 U.S.C. section 9601 et seq. as amended by 1986 Public Law 99-499.

"Secondary containment," where required for a petroleum UST system, means at least a 330 degree double-walled tank or a 360-degree integral secondary containment system and, for piping, a 360-degree double-walled pipe or a 360-degree integral secondary containment system or other method of containment indicated in subdivision 280.42(b)(5). Secondary containment systems shall meet the requirements of subdivisions 280.42(b)(1), (2), and (4).

"Septic tank" is a watertight covered receptacle designed to receive or process, through liquid separation or biological digestion, the sewage discharged from a building sewer. The effluent from such receptacle is distributed for disposal through the soil and settled solids and scum from the tank are pumped out periodically and hauled to a treatment facility.

"State fire marshal" deleted.

"Storm-water or wastewater collection system" means piping, pumps, conduits, and any other equipment necessary to collect and transport the flow of surface water runoff resulting from precipitation or domestic, commercial, or industrial wastewater to and from retention areas or any areas where treatment is designated to occur. The collection of storm water and wastewater does not include treatment, except where incidental to conveyance.

"Surface impoundment" means a natural topographic depression, manmade excavation, or diked area formed primarily of earthen materials, although it may be lined with man-made materials, that is not an injection well.

"Tank" means a stationary device designed to contain an accumulation of regulated substances and constructed of non-earthen materials, for example, concrete, steel, or plastic, that provide structural support.

"Under-dispenser containment (UDC)" means containment underneath a dispenser that will prevent leaks from the dispenser from reaching soil or groundwater. Such containment must meet all of the following:

(a) Be liquid-tight on its sides, bottom, and at any penetrations.

(b) Be compatible with the substance conveyed by the piping.

(c) Allow for visual inspection and access to the components in the containment system and/or be monitored.

(d) Prevent the intrusion of surface water.

Annual Administrative Code Supplement
2012 Edition

"Underground area" means an underground room, such as a basement, cellar, shaft, or vault, providing enough space for physical inspection of the exterior of the tank situated on or above the surface of the floor.

"Underground release" means any belowground release.

"Underground storage tank system" or "UST system" or "tank system" means a tank or combination of tanks, including underground pipes connected to the tank or tanks or underground ancillary equipment containment systems, if any, which is, was, or may have been, used to contain an accumulation of regulated substances and the volume of which, including the volume of underground pipes connected to the tank or tanks, is 10% or more beneath the surface of the ground. An UST system does not include any of the following:

(a) A farm or residential tank which has a capacity of 1,100 gallons or less and which is used for storing motor fuel for noncommercial purposes.

(b) A tank used for storing heating oil for consumptive use on the premises where the oil is stored.

(c) A septic tank.

(d) A pipeline facility, including gathering lines, regulated under either of the following:

(1) The natural gas pipeline safety act of 1968, Public Law 90-481, as amended, 49 U.S.C. appendix section 1671 to section 1677, section 1679A to section 1682, and section 1683 to section 1687.

(2) Sections 201 to 215 and 217 of the hazardous liquid pipeline safety act of 1979, as amended, title II of Public Law 96-129, 49 U.S.C. appendix section 2001.

(e) A surface impoundment, pit, pond, or lagoon.

(f) A stormwater or wastewater collection system.

(g) A flow-through process tank.

(h) A liquid trap or associated gathering lines directly related to oil or gas production and gathering operations.

(i) A storage tank situated in an underground area, such as a basement, cellar, mine, drift, shaft, or tunnel if the storage tank is situated on or above the surface of the floor.

(j) Any pipes connected to a tank that is described in subparagraphs (a) to (i) and (k) to (p) of this paragraph.

(k) An UST system holding hazardous wastes listed or identified under the provisions of subtitle C of the solid waste disposal act of 1965, title II of Public Law 89-272, as amended, 42 U.S.C. section 6921 to section 6931 and section 6933 to section 6939b, or a mixture of the hazardous waste and other regulated substances.

(l) A wastewater treatment tank system that is part of a wastewater treatment facility regulated under the provisions of section 307(b) of title III or section 402 of title IV of the federal water pollution control act of 1972, as amended, 33 U.S.C. section 1317 and section 1342.

(m) Equipment or machinery that contains regulated substances for operational purposes, such as hydraulic lift tanks and electrical equipment tanks.

(n) An UST system that has a capacity of 110 gallons or less.

(o) An UST system that contains a de minimis concentration of regulated substances. Please see the definition of "de minimis concentration."

(p) An emergency spill or overflow containment UST system that is emptied within 10 days after use.

"Underground tank" means an UST, except that such term does not include underground piping.

"Upgrade" means the addition or retrofit of some systems, such as cathodic protection, lining, or spill and overfill controls, to an existing tank system to improve the ability of an UST system to prevent the release of product.

"Wastewater treatment tank" means a tank that is designed to receive and treat an influent wastewater through physical, chemical, or biological methods.

History: 1998-2000 AACCS; 2008 AACCS; 2012 MR 9, Eff. May 8, 2012.

R 29.2108 Owner/operator training.

Rule 8. Section 280.13 is amended to read as follows.

Section 280.13. Operator training. Effective August 8, 2012, every facility having 1 or more UST systems subject to the requirements of R 29.2101 to R 29.2175 shall have a class A operator and class B operator.

(a) By August 8, 2012, a class A operator of an UST system shall submit an amended registration form to the department indicating the owner is in compliance with these rules and indicating a class B operator for each facility owned. The owner shall inform the department of any change no later than 30 days after the change.

(1) By August 8, 2012, a class A operator shall possess a current certificate issued by the international code council (ICC) indicating he or she has passed the Michigan class A UST system operator exam. The individual shall renew the ICC certification, by applying with ICC for recertification for the Michigan class A operator every 5 years.

(2) By August 8, 2012, a class A operator shall specify a class B operator for each facility where regulated UST systems are located. A class A operator may be specified as a class B operator as long as he or she possesses a current certificate from ICC indicating he or she passed a Michigan class B operator exam.

Annual Administrative Code Supplement
2012 Edition

(b) Class A operator responsibilities.

(1) If a facility has a person(s) routinely on-site, at least 1 person on-site shall be a trained class C operator whenever the facility is operating. If a facility does not have a person(s) routinely on-site, that facility shall have a class B operator, but is not required to have a class C operator on-site whenever the facility is operating. At locations configured for unattended self-serve, as defined in R 29.5329, the department will determine the need for a class C operator based on the best interests of public health, safety, and welfare and the environment.

(2) Class A operator may elect to replace a class B operator at any time providing proper notice of a replacement on an amended registration form submitted to the department.

(3) It is unlawful to operate a regulated facility without a class B operator assigned to the facility.

(4) Class A operator shall maintain a list of all current employees who are trained class C operator and produce documentation verifying training at time of inspection.

(5) Class A operator shall maintain inspection records required in section C of this subsection and provide them to the department upon request. These records shall be maintained for a minimum of 3 years by the class A operator.

(6) At unmanned facilities, fuel delivery personnel will be considered class C operator solely for the purpose of fuel deliveries. The owner shall ensure that the fuel delivery personnel servicing such locations have received appropriate site-specific spill and overfill training for the delivery process and are familiar with all applicable safety and emergency precautions that must accompany fuel deliveries.

(7) After August 8, 2012, all new class A operators, as defined, shall have an ICC class A certificate within 30 days of purchase of a regulated facility. A class B operator shall be identified immediately before a facility can operate.

(8) For a class A operator who has multiple facilities and multiple class B operators, the class A operator shall not be responsible for more than 45 facilities per class B operator. The class A operator shall provide the department with a list of all class B operators.

(c) Class B operator responsibilities. The class B operator shall maintain a current certificate issued from ICC indicating he or she has passed the Michigan class B operator exam. The individual shall renew the ICC certification, by applying with ICC for recertification for the Michigan class B operator every 5 years. The class B operator shall conduct the following activities for each facility for which he or she is responsible:

(1) Conduct a site visit inspection to determine the operational compliance status of each regulated UST system at the facility. These site visits shall be performed at a minimum on a quarterly basis. The quarterly site visit inspections do not eliminate the need for more frequent inspections for release detection and impressed current corrosion protection.

(2) Prepare a written record of each site visit inspection required in subdivision (1) of this subsection. Site visits shall be documented on a form provided by the department, or on a form acceptable to the department, or in an electronic format acceptable to the department, and shall contain an original signature of the class B operator. The class B operator shall provide the class A operator with a copy of each site visit inspection report and alert the class A operator of any condition discovered during the inspection that may require follow-up actions. These records shall include all of the following:

(i) Verification of proper tank registration including proper certificate posting.

(ii) Verification of functional status of corrosion protection equipment if required and present, including proper cathodic protection system readings in the case of impressed current corrosion protection systems.

(iii) Verification of functional status of release detection equipment including reviewing the alarm history report for the previous month, and checking that each alarm condition was documented and responded to appropriately. A copy of the alarm history report or log, along with documentation describing action taken in response to any alarm(s), shall be attached to the monthly report.

(iv) Results of inspection for the presence of product, water, or debris in the spill containers and verifying the functional status of leak prevention equipment, such as spill and overfill.

(v) Results of inspection for the presence of product, water, or debris in under dispenser containment areas or containment sumps, and checking that the monitoring equipment in these containment areas is located in the proper position to detect a leak at the earliest possible opportunity.

(vi) Verification that any required testing, monitoring, or periodic inspections of the UST systems have been completed, including documentation of the dates those activities occurred.

(vii) Verification of the presence of all required records necessary to substantiate operational compliance.

(viii) Notice to the class A operator of any deficiencies or noncompliance with paragraphs (i) to (vii) of this subdivision and any recommendations made to remedy any deficiencies or noncompliance discovered during the site visit, including any prior recommendations that have not been addressed within 60 days or another time frame determined by the department.

(3) The number of facilities that any one class B operator can be responsible for shall not exceed 45 facilities.

(4) Notify the department within 15 days if no longer acting as the class B operator for a certain facility.

(d) Class C operator. Class C operators shall be trained by the facility class B operator, or other acceptable training source.

(1) Each O/O shall maintain a list of trained class C operators for each facility and the date(s) of such training. This list

Annual Administrative Code Supplement
2012 Edition

shall be maintained at the facility, kept up to date, and available to the department upon request. Training shall include:

- (i) The operation of the UST system.
 - (ii) The class C operator's role with regard to monitoring equipment.
 - (iii) The class C operator's role with regard to spills and overfills.
 - (iv) Recognition of, and appropriate response to, site hazards.
 - (v) Recognition of, and response to, any unusual operating conditions of the UST system.
 - (vi) Establishing a procedure to notify the appropriate parties in a timely manner of site hazards and/or unusual operating conditions.
 - (vii) Training for any person designated as a class C operator shall be documented, at the facility where the individual is employed, and be suitable for site-specific conditions.
- (2) At least 1 trained class C operator shall be present during facility operating hours.
- (3) Each class C operator shall be provided with documentation indicating that the employee has completed training covering, at a minimum, all the items required in paragraphs (d)(1)(i) to (d)(1)(vi) of this subsection.
- (4) A class B operator shall not designate any responsibilities listed in subdivisions (c)(1) to (c)(3) of this section to any individual who is not a class B operator.
- (e) A class A operator of an UST(s) that has been determined to be out-of-compliance with significant operational compliance requirements (i.e., spill prevention, overfill prevention, release detection, and corrosion protection), financial responsibility, fees, or other requirements as determined by the department, and is noted from a facility inspection report issued by a hazardous materials storage inspector, the class A operator shall receive on-site retraining by a hazardous materials storage inspector. If the facility is brought back into compliance within a period not to exceed 60 days, no further action is required. A class A operator who does not bring his or her regulated UST systems back into compliance within 60 days shall take the ICC examination for a class A operator again.

DEPARTMENT OF EDUCATION

STATE TENURE COMMISSION
GENERAL RULES

PART 1. GENERAL PROVISIONS

R 38.131

Source: 1987 AACS.

R 38.132 Meetings of commission.

Rule 2. The chairperson of the commission or a majority of its members may call a session of the commission. The hours of the commission when in session shall be from 8 a.m. to 12 noon and 1:00 p.m. to 5 p.m. except as otherwise ordered by the commission.

History: 1979 AC; 2012 MR 22, Eff. Nov. 29, 2012.

PART 2. APPEAL PROCEDURES

R 38.141

Source: 1998-2000 AACS.

R 38.142 Form and style of papers.

Rule 12. (1) Pleadings and other documents filed with the commission shall be legibly printed or typewritten and shall be on 1 side only of white bond paper not more than 8 ½ inches wide and 11 inches long. Pleadings and briefs shall be filed with the commission along with 1 copy, except as required by R 38.143, R 38.147 and R 38.176, signed by the attorney, appealing party, or controlling board member. The commission may waive filing of the extra copies. The proper caption and docket number shall be placed on all papers filed. The given name and surname of the party shall be set forth in the caption.

(2) The signature of an attorney or party, whether or not the party is represented by an attorney, constitutes a certification by the signer of all of the following:

(a) He or she has read the pleading.

(b) To the best of his or her knowledge, information, and belief formed after reasonable inquiry, the pleading is well-grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law.

(c) The pleading is not interposed for any improper purpose, such as to harass or cause unnecessary delay or needless increase in the cost of the proceedings.

R 38.145 Filing.

Rule 15. (1) Pleadings or other papers under these rules shall be filed with the office of the commission and shall be received by the commission before the close of business on the last day of the time limit, if any, for the filing.

(2) The commission shall permit filing of pleadings and documents by use of facsimile (fax) communication equipment or by electronic submission as follows:

(a) All filings sent by fax or electronically shall be typewritten, excluding any required signatures, on 8 1/2" by 11" paper.

Annual Administrative Code Supplement
2012 Edition

- (b) The total number of pages of any pleading or document sent by fax or electronically shall not exceed 20 pages.
 - (c) Every fax filing shall include a cover sheet containing the following information:
 - (i) The case name.
 - (ii) The docket number.
 - (iii) The name and telephone number of the sender.
 - (iv) The number of pages being transmitted.
 - (d) Pleadings or documents filed by fax or electronically which are received after 5:00 p.m. will not be considered filed until the next business day.
 - (e) If pleadings or other papers are sent by fax or electronically, the sending party shall mail additional copies of the faxed document or pleading, as required by these rules, to the commission and shall serve the document or pleading as required by R 38.142, R 38.144 and R 38.146.

PART 5. HEARINGS

R 38.171 Notice of hearing.

Rule 41. An administrative law judge shall furnish to each party a notice of hearing establishing the date and place of the hearing. The hearing date shall not be less than 10 days after the date the notice of hearing is furnished and shall not be more than 45 days after service of the controlling board's answer, unless the administrative law judge grants a delay for good cause shown by the teacher or controlling board.

R 38.176 Exceptions briefs.

Rule 46. (1) Within the time allowed by the act, a party shall file an original and 6 copies of the brief and of the statement of exceptions, statement of cross-exceptions, or statement in support of the preliminary decision and order. If a party files an exception to a written ruling of the administrative law judge on a motion, the party shall file 6 copies of the motion decision and any associated pleadings.

(2) The argument presented in a brief in support of the statement of exceptions or statement of cross-exceptions shall correspond to the statement of exceptions or cross-exceptions.

(3) Except as permitted by order of the commission, briefs are limited to 50 double-spaced pages, exclusive of tables, indexes, appendices, and title page. Quotations and footnotes may be single-spaced. At least 1-inch margins shall be used, and printing shall not be smaller than 12-point type.

(4) The brief shall contain, in the following order, all the following items:

(a) A table of contents, listing the exceptions or cross-exceptions, in the order of presentation, with the numbers of the pages where the discussion of the exceptions or cross-exceptions appear in the brief.

(b) An index of authorities, listing in alphabetical order all case authorities cited, with the complete citations including the years of decision, and all other authorities cited, with the numbers of the pages where they appear in the brief. Parallel citations of Michigan statutes are required.

(c) A statement of facts, which shall be supported by specific page references to the record. Page references to the record shall also be given to show whether the issue was preserved for review by appropriate objection or by other means.

(d) The arguments, each portion of which shall be prefaced by the principal point stated in capital letters or boldface type.

Annual Administrative Code Supplement
2012 Edition

(e) The relief requested.

(f) A signature.

(5) If, on its own initiative or on a party's motion, the commission concludes that a brief does not substantially comply with the requirements in this rule, the commission may order the party who filed the brief to file a supplemental brief within a specified time correcting the deficiencies or the commission may strike the nonconforming brief.
